

Appeal for donations

Dear families,

We have some exciting news: our outdoor play area at the creche is to be enriched with a new, multi-faceted piece of play equipment! This special play equipment will not only give the children lots of fun, but will also serve as a place of rest and provide opportunities for climbing and playing.

Every contribution counts! We still need 1,500 euros so that this wooden house can be used by the children in our garden in 2025.

We rely on your support to make this project a reality. Every donation, whether large or small, brings us closer to our goal of providing our little adventurers with a safe and stimulating play environment.

Together we can make the children happy and promote their development. We thank you very much for your help and look forward to implementing this wonderful project with your support.

Best regards

Your Spielhaus team
